Career Objective

Aspiring Computer Science professional with a strong foundation in programming and a passion for Artificial Intelligence. Eager to contribute to innovative projects, solve real-world problems, and gain hands-on experience in a fast-paced AI or software development environment.

Education

Bachelor of Science in Computer Science

Minhaj University Lahore | Expected Graduation: 2028

GPA: 3.61

Relevant Courses: Object-Oriented Programming, Linear Algebra, Databases

Technical Skills

- Programming Languages: Python (Intermediate), C++
- AI/ML Tools: Scikit-learn
- Web Development: HTML, CSS, JavaScript
- Data Analysis: Pandas, NumPy, Matplotlib
- Other Tools: Git, Linux (Kali), Jupyter Notebooks

Projects

Machine Learning Model Training

- Trained and evaluated ML models using datasets from Kaggle and Google Dataset Search.
- Applied data cleaning, feature engineering, and model training using scikit-learn.
- Explored algorithms such as Decision Trees, K-Nearest Neighbors, and Logistic Regression.
- Achieved 85% accuracy on a classification task.

Certifications & Achievements

- Google Cybersecurity Certificate (2023)
- Awarded College Scholarship based on academic performance
- Advanced to Round 3 of Hackathon

Extracurricular Activities

- Volunteered at university-level tech events and workshops
- Participated in inter-university robotics competitions
- Participated in inter-university coding and innovation competitions

Interests

Artificial Intelligence, Robotics, Penetration Testing, Data Science
